

IJM

## SOUTHEAST ASIA

IJM is entering into a new season in Southeast Asia, fighting a crime that is devastating children: cybersex trafficking. This is the live-streaming sexual exploitation of children that is viewed over the internet. In Cambodia and Thailand, IJM's teams are helping combat cross-border labor trafficking that ensnares vulnerable migrant workers in the Thai fishing industry.

---

### PRAYER REQUESTS

---

- Sustainable care for boys and girls rescued from cybersex trafficking in the Philippines. For survivors—that they would have safe places to heal and grow and that they would see restoration.
- Law enforcement agencies within the Philippines and around the world as they fight cybersex trafficking. Please pray for government partners and international law enforcement agencies on the front lines of this fight as they work together to identify victims and bring accountability to those exploiting children.
- IJM Cambodia and IJM Bangkok as they work together on cases of cross-border labor trafficking. Pray for both teams as they work closely with authorities to investigate referrals, locate victims, and prosecute perpetrators.
